Schedule 4 of the Constitution mandates the Provincial Governments to render **population development and welfare services**

## 1.2 CORE FUNCTIONS AND RESPONSIBILITIES

To provide Developmental Social Services to individuals, families, groups and communities through the following social protection measures:

## 1.4 MAIN SERVICES

The Department offers its programmes and services not as a single entity but collaboratively with the NPO sector established under the Non-Profit Organisations Act (1997). The services of the Department are rendered through a structured based approach adopted from the White Paper for Social Welfare Services 1997 and Framework for Social Welfare Services 2013.

During a family's life course, individuals within the family transition between different life stages. Each stage presents new challenges and new opportunities for growth and development. However, for a range of reasons, many families are less equipped and face significant stressors as they seek to respond to the needs of family members. Such circumstances may include (but are not limited to) poverty and a lack of economic opportunities, poor infrastructure and service delivery, substance abuse, crime, and violence (Roman et al., 2016). In addition, pandemics, and other social and environmental shocks, such as HIV and AIDS and Covid-19, profoundly affect the well-being of South African families through shifts in the burden of care, health challenges, and loss. (National Family Policy, 2015). The Department will focus on the following for 2024/25 financial year:

### CRIME PREVENTION AND SUPPORT

Crime and violence continue to be amongst the most serious and intractable impediments to development in the Eastern Cape. Economic empowerment is central to women's ability to overcome poverty, cope with shocks and improve their well-being. A proclamation through Government Notice, Number 32844, dated 28 December 2009; recognizing a need to acknowledge South African Military Veterans, and therefore established a department to handle their affairs, the Department of Military Veterans (DMV). Subsequent to that, the Military Veterans Act 18 of 2011 was passed as legislation to handle all matters relating to Military Veterans. Military Veterans were identified as a designated group in the Eastern Cape Province. For 2024/25 plans the Department will prioritise delivery of services to military veterans in the Eastern Cape, where there will be signed Mou' between the Department and Department of Military Veterans.

Section 9 Of the Bill of Rights addresses the right to equality while Section 10 guarantees the right to dignity. The Military Veterans Act 18 of 2011, provides for principles that guide all benefits relating to military veterans, By Sector Departments. Military Veterans Act 18, 2011, Accommodates Military Veterans issues from all nine (9) Military Veterans associations and organisations, statutory and non-statutory.

### **2.3.8 PROVINCIAL ANTI-POVERTY STRATEGY**

The Eastern Cape Provincial Administration gave a mandate to the Provincial Department of Social Development to facilitate and drive the implementation of the Provincial Anti-Poverty Strategy, which is aimed at reducing the incidence of poverty as well as to prevent the reproduction of poverty within households and communities of the Eastern Cape Province.

At the centre of the fight against poverty is the creation of economic opportunities and enabling or empowering

communities and individuals to access these opportunities. Providing a safety net in the form of social assistance and provision of basic services continues to be critical in the efforts towards eradication of poverty.

In line with the multidimensional nature of poverty, the anti-poverty framework is anchored on the five pillars listed below:

- **Pillar 1:** Promote social inclusion, implement social capital Initiatives and build safer communities.
- **Pillar 2:** Invest in human capital and Human Development: This objective responds to the need to provide health care, education and training needed to engage with the economy and in political processes. Central here is ensuring that poor children grow up healthy, are provided with quality and efficient preventative and curative care and ensuring that illness or disability do not plunge poor households into destitution.
- **Pillar 3:** Improve the health profile: Adequate healthcare is critical in the struggle against poverty to maintain good quality of life, ensure adults are able to work and care for their families, and that children grow up healthy. If healthcare is unaffordable, an illness can plunge a marginal family into crisis. Moreover, providing adequate healthcare for all is a critical element in building social trust and solidarity.
- **Pillar 4:** Ensure income security, create economic opportunities and jobs: The strategy recognises the importance of providing safety nets for the most vulnerable, primarily through social grants. This is to ensure that vulnerability associated with disability, age and illness does not plunge poor households into destitution. Measures to ensure income security for those without access to economic opportunities take two forms namely, social assistance and social insurance.
- **Pillar 5:** Better targeted access to basic services and assets: This pillar addresses what has been termed a social wage, consisting of services such as subsidised housing, and expanded access to water, electricity, refuse removal and sanitation; as well as a raft of minimum free basic services for vulnerable sectors of the population. It is an important principle that inability to pay for basic services should not prevent the poor from accessing these services altogether.

The Anti-Poverty and Rural Development Strategy is intended to be implemented in accordance with the policy directives of the Provincial Medium - Term Strategic Framework 2020-2024 in the poorest nodal points within **39 Wards** in the identified Local Municipalities with special focus on the **476 villages**.

The following are the services and interventions that the Department of Social Development will be contributing in the 39 Wards to enhance human

capabilities, building resilience in individuals, families  
and development and empowerment of communities

## DISTRICT DEVELOPMENT MODEL

The District Development Model (*inspired by the Khawuleza Presidential call to action*), launched by the President aims to accelerate, align and integrate service delivery under a single development plan per district or metro that is developed jointly by national, provincial and local government as well as business, labour and community in each district. Each district plan must ensure that national priorities such as economic growth and employment; improvements to living conditions; the fight against crime and corruption and better education outcomes are attended to in the locality concerned. In the Eastern Cape, OR Tambo District Municipality has been identified as the rural pilot of the District Development Model (DDM). The Model will be rolled out in all the districts and metros in the Province. This will assist in ensuring that planning and spending across the three spheres of government is integrated and aligned and that each district or metro plan is developed with the interests and input of communities taken into account upfront.

The Department of Cooperative Governance and Traditional Affairs (COGTA) is championing the implementation of the DDM by all sector departments in the province is still finalizing a Provincial Institutionalization Framework that will assist to formally institutionalize, provincialize and localize the DDM with structured response and accountability.

The Department will participate through district offices in ward-based planning and Municipal IDP processes to ensure alignment of departmental plans and budgets with local government plans whilst the full-blown implementation of the DDM is in the process of being rolled out by COGTA. DSD participates in the DDM structures that have since been established at a district level and have already submitted their catalytic projects and the DSD plans form part of Municipal IDP's that have since been confirmed and tabled by District Mayors. The process of district profiling which is also part of the DDM processes has initiated by DSD but is now stalling due to COVID-19 with the hope that progress will improve in line with the COVID-19 levels.

The implementation of the DDM has fostered practical intergovernmental relations to plan, budget and implement jointly with other sector departments and local government in order to provide coherent and seamless services to communities. DSD will continue to strengthen IGR systems at all levels for enhanced and integrated. These key projects will be implemented through these interventions: A myriad of integrated Developmental Social Services intervention are implemented with the District to address the social ills that exist. ## 2.4 HIV AND AIDS

The National Development Plan notes that in 2007, South Africa represented 0.7 percent of the World's population but accounted for 17 percent (about 5.5 Million people) of the global number of HIV infections. In the Eastern Cape specific focus is more on areas where there is high HIV prevalence as HIV has enormous strain on the capacity of families to cope with Psycho – Social and economic consequences of the illness as well as to curb new HIV infections.

Young people aged (15 -24 years) are identified as key population mostly affected by HIV and AIDS hence strengthening of Prevention Programme through social and behavior change and Psycho-social support services. In response to this, DSD derives its mandate from the National Strategic Plan (NSP) for HIV&AIDS, TB and STI's 2017-2022 which acknowledges that HIV&AIDS is not only a health issue, but a developmental issue, hence the combination approach. In the next financial year focus will also be on Key populations that have not been key in the Programme i.e. Sex Workers, Older Persons, Persons with disabilities, Lesbian, Gay, Bi-sexual, Trans-gender, Inter-sexual, Queer, Asexual plus (LGBTIQA+'s) and Families experiencing Gender Based Violence which will have an effect on the Programme target population.

### 2.5 SOCIAL RELIEF

The Department is mandated by the Social Assistance Act to develop a safety net for individuals, families and communities in difficult circumstances and to respond to situations of disaster declared and undeclared. This the Department does in collaboration with South African Social Security Agency (SASSA) as the Department Agency. The services are aimed at the eligible poor and vulnerable and can be offered in the form of counseling and material aid (uniform, clothing, food parcels etc.). The unit cost of intervention per beneficiary is based on the pronouncement of the increase or decrease of the Old Age Social Grant as pronounced by the Minister of Finance annually which impacts on reaching out to more beneficiaries sometimes due to budget limitations.

The Department will further contribute to the Integrated School Health Programme in ensuring that indigent learners from Quintile 1,2 & 3 schools receive material support in partnership with Department of Education and Department of Health. The Department will further ensure that these services are more biased towards Anti-Poverty sites.

### 3.3 CHILD CARE AND PROTECTION

The primary focus of this programme is care and protection of children against Violence, Child Abuse, Neglect and Exploitation (VCANE). This is undertaken through provision of Community Based Prevention and Early Intervention Services to support Vulnerable Children in communities. It also ensures provision of Therapeutic, Psychological, Rehabilitative services as well as Alternative Care Services for children found to be in need of care and protection through Temporary Safe Care, Foster Care, Child and Youth Care Centres including Adoption Services for those requiring permanency.

Child Care and Protection is a highly legislated terrain, rooted on both the Constitution of the Republic of South Africa, Act No. 108 of 1996 and the Children's Act 38 of 2005 as amended. The Programme needs to ensure compliance to legislation/professional standards/service standards to avoid litigation. This requires design and implementation of integrated programmes and services (interventions, evidence-based management and information support, human resource development and capacity building) that provide for the development, care and protection of the rights of children. Full and effective implementation of the Children's Act 38 of 2005 as amended remains our biggest challenge.

The sector paradigm shift for provision of Child Protection Services emphasizes a shift from statutory services to Prevention and Early Intervention Programmes to ensure that abuse is prevented before it occurs, identified early enough, avoid children from getting deeper into the system and that all children are prepared for every stage of life in line with the life cycle approach.

### 3.4 PARTIAL CARE SERVICES

The primary focus of the programme is to provide reception, protection, development and partial care to children on behalf of their parents or caregivers for a temporary period during day and could include overnight. Develop provincial partial care strategy and profile for partial care as enshrined in the children's Act 30/2005 as amended. Registration and monitoring of partial care facilities (private school hostels, temporary respite care referral to as special day care centres and after school care) to ensure compliance with norms and standards. The programme also focuses more on prioritization and providing care for children with disabilities, which are those children with cognitive impairments, hearing impairment, deafness, speech or language impairment, blindness, deaf blindness, serious emotional disturbance, orthopedic impairment, severe or multiple disabilities, autism, traumatic brain injury, developmental delay, or specific planning disabilities and who by reason of qualifying disability require special education and care.

### 3.5 CHILD AND YOUTH CARE CENTRES (CYCC)

The sub-programme provides residential care services and support to vulnerable children through governance (registration, funding, monitoring and evaluation of Child and Youth Care Centres) and capacity building of all relevant stakeholders in the children's Act. Slow progress in reunification services for children in residential care centres due to limited resources for case managers (external Social workers from Department of Social Development (DSD) and Child Protection Organizations).

The target and counting in this indicator also include children placed in state owned CYCCs, underperformance is viewed as positive deviation in line with the sector Paradigm shift that enforces CYCCs as the less preferred alternative care option, promoting family based approach as opposed to institutionalization of children.
