2.2.7 CARE AND SUPPORT TO FAMILIES

Along with the economy, polity and education, the family is universally viewed as one of the essential sectors without which no society can function (Ziehl, 2003). As the setting for demographic reproduction, primary socialisation, and the source of emotional, material, and instrumental support for its members (Belsey, 2005), families influence the way society is structured, organised, and is able to function. During a

family's life course, individuals within the family transition between different life stages. Each stage presents new challenges and new opportunities for growth and development. However, for a range of reasons, many families are less equipped and face significant stressors as they seek to respond to the needs of family members. Such circumstances may include (but are not limited to) poverty and a lack of economic opportunities, poor infrastructure and service delivery, substance abuse, crime, and violence (Roman et al., 2016). In addition, pandemics, and other social and environmental shocks, such as HIV and AIDS and Covid-19, profoundly affect the well-being of South African families through shifts in the burden of care, health challenges, and loss. (National Family Policy, 2015).

2.2.8 CRIME PREVENTION AND SUPPORT

Crime and violence continue to be amongst the most serious and intractable impediments to development in the Eastern Cape. These impediments are the result of a multiplicity of factors related to the socio-economic challenges experienced by the province, which are characterized by extreme inequality and poverty, spatial segregation and high levels of unemployment.

In line with the National Development Plan (NDP) sets out a vision for safer communities, recognizing the need to address the drivers of crime and violence, the Department of Social Development implements Social Crime Prevention Strategy through the following measures:

- Expand provision of re-integration programme for ex-offenders
- Implementation of social crime programmes in hot spot areas

The National Strategic Plan is a government and civil society's multi-sectoral strategic framework to realise a South Africa free from gender-based violence and femicide. It recognises all violence against women (across age, location, disability, sexual orientation, sexual and gender identity, nationality and other diversities) as well as violence against children. The National Strategic Plan outlines six pillars that must be implemented throughout the provinces:

- Pillar One: Accountability, Coordination and Leadership
- Pillar Two: Prevention and Rebuilding Social Cohesion

The Department will implement the following measures:

- Provision of support services to all victims of crime and violence in line with the Norms and Minimum Standards for Victim Empowerment.

2.2.11 YOUTH DEVELOPMENT

National Youth Policy 2020-2030 sets out interventions that facilitates holistic positive development for young people to enable them to contribute positively and actively in the socio-economic platforms within the society.

The Department of Social Development Strategy as aligned to the Eastern Cape provincial youth strategy seeks to achieve a holistic and positive impact on youth development in terms of the cultural, social, economic and empowerment aspects of collective and individual development of young people.

The youth development objectives of this strategy are:

- To mainstream youth development across the spectrum of DSD services by ensuring that the importance of youth development is understood within the context of the DSD mandate, is planned for in terms of resourcing and budget allocation/spend and is carried out in a co-ordinated manner with all the relevant stakeholders and role-players
- To ensure that youth development – within the DSD - is carried out in a co-ordinated manner in order to achieve the desired outcomes and impact
- To provide youth with opportunities to improve their education and skills through access to tertiary and vocational education, skills development programmes, internships and learnerships that will allow them to take advantage of key opportunities in the employment space – both within the public and private sectors
- To encourage social engagement and active citizenship through participation in community development initiatives and programmes thereby ensuring responsible and engaged young community members who contribute positively to society
- To promote entrepreneurship and innovation amongst the youth through support for youth-initiated ideas and projects that are creative and contribute to solving community-based problems, challenges and issues that seek to drive economic growth and sustainable development at a community-level

Youth Development Programme focus areas: Support to Youth Development Structures (Youth Cooperatives & NPOs), Skills Development and Youth Mobilisation.

- Support to youth development structures focuses on empowering young people by providing them with livelihood opportunities to enhance their capabilities and create self-employment opportunities. These initiatives are democratic organisations which emanates from youth mobilisation sessions with a social purpose that addresses both economic need and social need initiated and sustained by the combination of public and private resources. The programme provides financial support, capacity building and mentorship in relevant aspects such as governance, entrepreneurship development, financial management, bookkeeping, marketing leadership, social cohesion and nation building for effective performance and for service delivery.

Skills Development

- Youth development incorporates youth skilling through training, internship and learnerships for young people to access a range of available opportunities within the mainstream economy. These programmes provide foundation for youth to enter a range of qualification based training on community development methodologies, technical scarce skills and soft skills such as Culinary Skills, carpentry (construction & cabinet making), upholstery, community house building, electrical, plumbing, welding, life skills, computer training, digital skills, business skills, sewing, entrepreneurship and drivers licence)
- Youth Mobilisation involves continuous engagement of young people for empowerment and to equip them with tools for personal development and sustainable livelihoods. Personal development covers any activity that improves awareness or identity, enhances quality of life/develops talents and skills so as to contribute to social cohesion and nation building. Young people are mobilised to work together, engage, raise awareness, create a strong voice, actively participate in their own development using a solution focused approach that empowers them to solve their own problems. These programmes are facilitated through youth outreach programmes, youth dialogues, intergenerational dialogues, youth month events and Provincial Youth Camp.

2.2.12 WOMEN DEVELOPMENT

Implementation of Women Empowerment Gender Equality Strategy

The Department of Social Development has spearheaded the development of the Women Empowerment Gender Equality Strategy to ensure that women in their diversity in the Eastern Cape Province have and can take full and fair advantage of opportunities to earn a living, maintain self-esteem, and fully exercise their social and economic rights. The literature shows that empowering women and girls helps to build and develop their capabilities and capacity to be functional, leading to better and sustainable socio- economic outcomes for the realization of their personal well-being and for the good of society at large. Ensuring women's full participation in the economy is, thus, essential if the ideals of equity, prosperity, shared and inclusive growth are to be achieved. By developing the strategy, the department strives to adhere to its constitutional mandates and obligations of promoting socio economic development of the province, paying particular attention to rural dwellers.

The promotion of gender equality and women empowerment is a process rather than a goal, and in this respect the department envisages the need for the alignment of the strategy with other provincial and departmental gender policies, programmes and strategies such as the National Strategy Framework for Women Empowerment and Gender Equality. The alignment is intended to facilitate a common vision and

enhance synergistic cooperation of all departments for effective implementation of the provincial sector plan towards the realization of gender equality and women empowerment, and the broader Outcome 14 of the national priorities: “a diverse, socially cohesive society with a common national identity”.

Women’s Economic Empowerment

The promotion of women empowerment and gender equality is a priority which is expressed in several South African laws which are aligned with regional, continental and global conventions and frameworks. In fostering an enabling environment for gender equality, the Department implements the following interventions:

Economic empowerment is central to women’s ability to overcome poverty, cope with shocks and improve their well-being. Women’s economic empowerment is when women can make and/or influence, and act on decisions about their participation in labour markets, their share of unpaid work and in the allocation and use of their own/their household’s assets. The Department will implement the following interventions: Develop a database of NPOs, Cooperatives and informal trading entities

- Enable women to access start-up capital and funds for expansion of existing women-owned businesses.
- Promote cooperation among women led NPOs and cooperatives.
- Improve capacity and mentoring of women in business and potential entrepreneurs
- Facilitate skills development and training in business and entrepreneurship development, co-operatives development, organizational, financial management and stokvel savings management;

Promoting Women Empowerment through Cooperatives

A cooperative refers to an autonomous association of people who voluntarily cooperate for their mutual social, economic, and cultural benefit. It includes non-profit community organisations that are owned and managed by the people who use their services (consumer co-operatives) and/or by the people who work there (worker co-operatives). The Department will promote Women Empowerment through:

- Improved access to economic opportunities for women cooperatives.
- Improved capacity and access to markets
- Strengthening management and governance of women cooperatives.
- Improved access to mentorship, information and advisory services

Support to Women’s Social Empowerment and Protection Programmes

Women’s social empowerment is understood as the process of developing a sense of autonomy and self-

confidence, acting individually and collectively to change social relationships. It is when women gain the ability to make/influence decisions about their social interactions (e.g. mobility, association with others), reproduction, health and education

- Eradicating and supporting victims of Gender-Based Violence and Femicide.
- Strengthening women’s development.
- Promoting and protecting women’s rights

DISTRICT DEVELOPMENT MODEL

IMPLEMENTATION OF PROGRAMMES TARGETING MILITARY VETERANS

A proclamation through Government Notice, Number 32844, dated 28 December 2009; recognizing a need to acknowledge South African Military Veterans, and therefore established a department to handle their affairs, the Department of Military Veterans (DMV). Subsequent to that, the Military Veterans Act 18 of 2011 was passed as legislation to handle all matters relating to Military Veterans. Military Veterans were identified as a designated group in the Eastern Cape Province. For 2025/26 plans the Department will prioritise delivery of services to military veterans in the Eastern Cape, where there will be signed MOU between the Department and Department of Military Veterans.

Section 9 Of the Bill of Rights addresses the right to equality while Section 10 guarantees the right to dignity. The Military Veterans Act 18 of 2011, provides for principles that guide all benefits relating to military veterans, By Sector Departments. Military Veterans Act 18, 2011, Accommodates Military Veterans issues from all nine (9) Military Veterans associations and organisations, statutory and non-statutory. The Department will focus on the following services to military veterans:

- 1) Provision of Psychosocial support services
- 2) Profiling of Households
- 3) Provision of Social Relief of Distress
- 4) Facilitation of Business Development Support (Registration of, co-ops, NPO's).

IMPLEMENTATION OF PROGRAMMES TARGETING EX-MINE WORKERS

The Department will focus on the following services to Ex Mine Workers:

- 1) Provision of Psychosocial support services
- 2) Profiling of Households

- 3) Provision of Social Relief of Distress
- 4) Facilitation of Business Development Support (Registration of, co-ops, NPO').

DISTRICT DEVELOPMENT MODEL

The District Development Model (*inspired by the Khawuleza Presidential call to action*), launched by the President aims to accelerate, align and integrate service delivery under a single development plan per district or metro that is developed jointly by national, provincial and local government as well as business, labour and community in each district. Each district plan must ensure that national priorities such as economic growth and employment; improvements to living conditions; the fight against crime and corruption and better education outcomes are attended to in the locality concerned. In the Eastern Cape, OR Tambo District Municipality has been identified as the rural pilot of the District Development Model (DDM). The Model will be rolled out in all the districts and metros in the Province. This will assist in ensuring that planning and spending across the three spheres of government is integrated and aligned and that each district or metro plan is developed with the interests and input of communities taken into account upfront.

Lack of coordination between national and provincial governments, between departments and particularly at local government level, has not served the country. The pattern of operating in silos has led to lack of coherence in planning and implementation and has made monitoring and oversight of government's

programme difficult. The President in the 2019 Presidency Budget Speech (2019) identified the "pattern of operating in silos" as a challenge which led to "lack of coherence in planning and implementation and has made monitoring and oversight of government's programme difficult". The consequence has been non optimal delivery of services and diminished impact on the triple challenges of poverty, inequality and employment.

The rolling out of "a new integrated district-based approach to effectively address our service delivery challenges and localized procurement and job creation, that promotes and supports local businesses, and that involves communities, was important. The DDM focusses on implementation of immediate priority projects, stabilisation of local government and long-term institutionalisation of integrated planning, budgeting and delivery anchored on the development and implementation of the "One Plan". As such the DDM focuses on building state capacity as the system of Local Government is stabilised, and in the medium term, to improve cooperative governance, integrated planning and spatial transformation, inclusive economic development, and where citizens are empowered to contribute and partner in development.

The DDM enables synergy between national, provincial and local priorities; and implementation of immediate priority projects and actions as well as a long-term strategic framework for predictable, coherent and effective service delivery and development. It enables implementation of the National Development Plan (NDP), National Spatial Development Framework (NSDF), Integrated Urban Development Framework (IUDF) and the Medium-Term Strategic Framework (MTSF) by localising and synergising objectives, targets and directives in relation to the 52 District and Metropolitan spaces (IGR Impact Zones), thereby addressing the triple challenges of poverty, inequality and unemployment in a spatially targeted and responsive manner. The DDM is positioned in relation to the NDP, MTSF and NSDF to enhance the overall system by synergizing national, provincial and local priorities in relation to the district and metro spaces.

The Department of Cooperative Governance and Traditional Affairs (COGTA) is championing the implementation of the DDM by all sector departments in the province is still finalizing a Provincial Institutionalization Framework that will assist to formally institutionalize, provincialize and localize the DDM with structured response and accountability.

The Department will participate through district offices in ward-based planning and Municipal IDP processes to ensure alignment of departmental plans and budgets with local government plans.

The implementation of the DDM has fostered practical intergovernmental relations to plan, budget and implement jointly with other sector departments and local government in order to provide coherent and seamless services to communities. DSD will continue to strengthen IGR systems at all levels for enhanced and integrated

These key projects will be implemented through these interventions: A myriad of integrated Developmental Social Services intervention are implemented with the District to address the social ills that exist. The following interventions are implemented with stakeholders and Social Partners.

Over the MTDP period, the Department will contribute to the DDM through these interventions:

UPDATES TO RELEVANT COURT RULING

The following are the court rulings will continue having an impact on the Departmental operations or service delivery obligations during the 2024/25 financial year and beyond:

i. High Court Ruling on NPO Funding Policy – NAWONGO v MEC for Social Development and Others Case No. 1719/2010, Free State High Court

A group of NPO's in the Free State Province, brought a court application against the Free State Provincial Department of Social Development, after several years of serious frustration in the manner that the Free State Provincial Department had dealt with the transfers of their subsidies. The first part of the NPO's application was that government should immediately pay the transfers that had already been allocated to the NPO's but was yet to be transferred. The second part of the NPO's application was that the Free State Provincial Department should urgently review its policies in respect of NPO funding.

The first part of the judgment, delivered in August 2010, noted that 1 400 NPOs were currently funded by the Free State Provincial Department of Social Development, and that the Department openly acknowledged that these organisations played a major role in delivering social services to children, older people, people with disabilities and others. In fact, the Department was dependent on the NPO's for delivering services which the Department was responsible for in terms of the Children's Act and the Older Persons Act. The Department also acknowledged that the funding to the NPO's do not cover the full costs of delivering these services, yet the allocations to NPO's and the way in which it makes (or does not make) payment do not reflect these acknowledged facts.

The judgement provided guidance to the Free State Provincial Department of Social Development on how it should revise its funding policy in order for the policy to be reasonable. Firstly, the policy must recognise that the NPO's are providing services that the Department itself is obliged to provide in terms of the Constitution and the applicable relevant legislation. Secondly, the policy must have a fair, equitable and transparent method of determining how much the department should pay and how much the NPO's should contribute from other sources of income such as donations from funders.

While the judgment was against the Free State Department of Social Development, it is relevant to all Provincial Departments of Social Development because the Free State's NPO funding policy is the same as the national policy. Therefore, the judgement was also a strong indictment of the existing national framework for the funding of NPO's that all provincial governments followed. The Eastern Cape Department of Social Development continually strives to adhere to the guidance provided by the High Court in developing and improving its funding policies.

ii. High Court Matter on reduction / termination of subsidies -

Eastern Cape NGO Coalition v MEC for Social Development and others, Case No. 2460 /2018, Grahamstown High Court

The Legal Resource Centre, an NGO based in Grahamstown was acting on behalf of the Eastern Cape NGO Coalition, a group of NPO's based in the Nelson Mandela Metro District. An urgent court application was launched during August 2018 for an order to compel the Department to review its decision to cut, reduce and/or terminate the payment of subsidies to the affected NPO's. In essence, this matter dealt with the historical imbalance of NPO funding in the developed part of the Eastern Cape, i.e. the Port Elizabeth and East London metropolitan areas, and the underdeveloped part of the Eastern Cape, i.e. the former Ciskei and Transkei.

The High Court found that the Department's decision to cut, reduce and/or terminate the payment of the affected NPO's was unlawful, irrational and unconstitutional. The Court further found that the Department's consultative process with the affected NPO's was not comprehensive nor was it transparent as the Department appeared to have already made a decision before the consultation process had commenced. The High Court did not grant any compensation due to the elapse of time that had passed since the matter was initiated. The judgment is however important as the Department had to review its entire consultative process to be one that is inclusive, encompassing, open and transparent. The Department has ensured that all future consultative processes with NPO stakeholder forums, individual NPO's and the community at large is just that to prevent any claim that the Department has embarked on the consultative process with a pre-determined decision.

iii. High Court Matter on suspending subsidies based on alleged corruption -

Sakhingomso Training and Development Centre v MEC for Social Development and one other, Case No. 4244 / 2021, Mthatha High Court

The District received an anonymous tip off alleging corruption and mismanagement of subsidised funds at the Sakhingomso Training and Development Centre in Mthatha. The District reported the allegations to the Provincial Head Office and requested a forensic investigation. The District then decided to suspend the further payment of subsidies to the Centre pending the finalisation of the investigation. Alternative arrangements were made for the affected children at the Centre. In terms of the Department's service level agreement with the Centre, the Department reserved the right to suspend funding where allegations of such a serious nature are brought to the fore. The Department is however obligated in terms of the contractual agreement to finalise the investigation within a fairly quick turnaround time, which it failed to do.

The High Court found that the Department had not complied with the service level agreement and was in breach of its own contractual obligations. The Department should have concluded its investigation within the time period agreed and should have presented its findings to the Management Board of the Centre to allow them to implement the recommendations and/or remedial steps. The Court further found that the failure of the Department to conclude its own investigation due to budgetary constraints could not be laid at the door of the Centre and that the suspension of funds should at best have been lifted in order to allow the Centre to operate and render services.

The High Court ordered the Department to compensate the Centre all the outstanding subsidies that was withheld during the period of suspension. The judgment is important as the Department has learnt that it must comply with its own obligations in terms of its contractual agreement before taking the drastic decision to suspend funding. The Department has further revised its contractual agreement to allow itself a reasonable time to conclude investigations into allegations of fraud and corruption, and to define the special circumstances under which subsidies may be suspended.

**iv. High Court Matter on the reduction of subsidies –
*Imbumba Association for the Aged v MEC for Social Development and one other, Case No. 647 / 2022***

The Department and the associated members of Imbumba entered into service level agreements on or about May/June 2021 to provide services at Service Centres for older persons in rural, poverty-stricken areas concentrated in the former Ciskei and Transkei. As a result of the devastating impact of the COVID pandemic on the national fiscus, the State implemented national and consequential provincial budget cuts across all organs of State, including the Department for the financial year 2020/2021. The budget cuts for the Department of Social Development were detrimental to its constitutional mandate with all five Departmental programmes adversely affected, including its core services. This resulted in the Department having to implement budget cuts across the board, with programme 2 deciding to limit the number of subsidised beneficiaries who visit service centres to a maximum of 20 beneficiaries. The decision was informed by the national state of disaster regulations implementing a national lockdown restricting the freedom of movement during the highest levels of COVID. Unbeknown to the Department, the care givers at these Imbumba affiliated service centres defied the ban and visited the beneficiaries at their homes to provide the assistance that they would ordinarily have received at the service centres but for the COVID lockdown.

Imbumba raised a dispute about the reduction of the number of beneficiaries to a maximum number of 20. Dissatisfied with the Department's responses, the dispute escalated into a formal application before the High Court in Makhanda under case no. 647 / 2022.

The Department, alive to its constitutional mandate to *inter alia*, provide social security to older persons, and appreciative of the partnership with Imbumba, initiated negotiations through its internal legal services with the legal representatives of Imbumba in an effort to settle the dispute out of court.

In following this approach, the Department considered the fact that although the national lockdown restricted the movement of ordinary citizens including older persons, and despite the service centres not rendering the services at their institutions, the Department had a moral duty in terms of its Constitutional mandate to at least compensate the service centres for actual services rendered where sufficient proof could be provided of home visits. The circumstances were after all exceptional as none of the litigants could have foreseen the catastrophic consequences of the COVID pandemic that has now forever changed the landscape within which government renders its services to the marginalised and impoverished citizens of the country.

Due to the litigant parties having signed a confidentiality agreement, the Department is precluded from divulging the terms and conditions of the settlement agreement. The matter is important as it gives the Department a blueprint on how to manage a national disaster of the magnitude of the COVID pandemic, the likes of which has never been seen or experienced by past generations. More so, where such a pandemic has a detrimental impact on the State Fiscus, any budgetary reductions must first pass constitutional muster.

**v. High Court Ruling on NPO Funding Policy –
*NAWONGO v MEC for Social Development and Others Case No. 1719/2010, Free State High Court***

A group of NPO's in the Free State Province, brought a court application against the Free State Provincial Department of Social Development, after several years of serious frustration in the manner that the Free State Provincial Department had dealt with the transfers of their subsidies. The first part of the NPO's application was that government should immediately pay the transfers that had already been allocated to the NPO's but was yet to be transferred. The second part of the NPO's application was that the Free State Provincial Department should urgently review its policies in respect of NPO funding.

The first part of the judgment, delivered in August 2010, noted that 1 400 NPOs were currently funded by the Free State Provincial Department of Social Development, and that the Department openly acknowledged that these organisations played a major role in delivering social services to children, older people, people with disabilities and others. In fact, the Department was dependent on the NPO's for delivering services which the Department was responsible for in terms of the Children's Act and the Older Persons Act. The Department also acknowledged that the funding to the NPO's do not cover the full costs of delivering these services, yet the allocations to NPO's and the way in which it makes (or does not make) payment do not reflect these acknowledged facts.

The judgement provided guidance to the Free State Provincial Department of Social Development on how it should revise its funding policy in order for the policy to be reasonable. Firstly, the policy must recognise that the NPO's are providing services that the Department itself is obliged to provide in terms of the Constitution and the applicable relevant legislation. Secondly, the policy must have a fair, equitable and transparent method of determining how much the department should pay and how much the NPO's should contribute from other sources of income such as donations from funders.

While the judgment was against the Free State Department of Social Development, it is relevant to all Provincial Departments of Social Development because the Free State's NPO funding policy is the same as the national policy. Therefore, the judgement was also a strong indictment of the existing national framework for the funding of NPO's that all provincial governments followed. The Eastern Cape Department of Social Development continually strives to adhere to the guidance provided by the High Court in developing and improving its funding policies.

**vi. High Court matter on adoptions –
National Adoption Coalition of South Africa v MEC
for Social Development, KZN – Case Number
D4680/2018, Durban High Court**

The Department's budgetary constraints is further challenged by the KZN High Court Order relating to adoption services. In summary the case related to serious delays experienced in the issuing of Section 239 (Children's Act) letters by the KZN Department of Social Development. These delays in many instances prevented adoptions from proceeding due to the Department's failure to decide on the adoption and consequently preventing the Children's Court from timeously considering the adoptions.

The judgment handed down declared that the current adoption process followed in respect of Section 239 applications was infringing on the rights of the adoptable children, the rights of the birth parents and the rights of the prospective adoptive parents. The Court Order provided strict timelines for DSD to process all outstanding adoptions, namely 30 (thirty) days. The Court Order further directed that proper consideration of all the relevant factors be undertaken, and this now represented a significant departure from the past decision-making process that was more rigid.

The judgment sets an important precedent as it enforces the Department to provide and allocate adequate resources to ensure that the adoption system flourishes and is managed efficiently and effectively. If not, the Department runs the risk of similar litigation. The Department has taken heed of the judgment and has implemented proactive steps to efficiently and effectively manage the adoption process despite serious budgetary constraints and stretched resources.

**vii. High Court matter on children with Disruptive
Behaviour Disorders
Centre for Child Law v Ministers of Social
Development, Health and Basic education
(Children with Severe or Profound Disruptive
Behavioural Disorders)**

The case focused on the plight of a 10-year-old girl who was orphaned and placed in foster care shortly after birth. The placement broke down, leading to 15 different placements in her 10 years of life. Three government Departments, namely Department of Social Development [DSD], the Department of Health [DOH] and Department of Basic Education [DBE] were taken to Court by the Centre for Child Law for their failure to cater for the provision of appropriate alternative care, mental services and basic education of an adequate quality for children with Severe or Profound Disruptive Behavioural Disorders (DBD).

The three departments ultimately acknowledged that their present policies, programmes and plans did not comply with the obligations imposed on them by the Constitution and legislation to provide appropriate assistance and care to children with severe or profound disruptive behaviour disorders.

A settlement was reached between the three Departments (DSD, DoH and DBE) and the Centre for Child Law.

The settlement agreement required of the departments to develop an inter-sectoral policy, and an implementation plan that removes barriers that hinder children with behavioural difficulties' full and effective participation in society. The order further required that the policy and plan must also explain how residential care facilities, with appropriate programmes, will be spread out, to ensure that children have access to services they need and that these services address their particular needs if they are in need of care and protection. The policy and plan must also set out how basic education and appropriate health care services will be provided to the children as well as how support for families and respite care will be provided so that children are not unnecessarily removed from their family environment.

The order set out interim arrangements that were to be put in place while the policy and plan was being developed, with the departments required to ensure that children with behavioural difficulties brought to their attention must be provided with suitable alternative care and if necessary, have access to quality education and receive appropriate health care services while their families should be provided with necessary support.

The Department of Social Development was specifically ordered to make arrangements for children with DBD to be placed in the most suitable Alternative Care as well as ensuring provision of the necessary and suitable support to Parents/Caregivers of children with DBD who remain in their care.

viii. D and Another v Head of Department of Social Development, Gauteng and Others, S and Another v Head of Department of Social Development, Gauteng and Others (30205/2019, 55642/2019) [2021] ZAGPPHC 388 (17 June 2021)

Both matters relate to the proper interpretation of section 239(1)(d)[1] of the Children's Act 38 of 2005 (the Children's Act) to recommend an adoption. The applicants were of the view that such a letter (recommending an adoption) is not a peremptory requirement and should be interpreted to include a letter not recommending an appointment.

The Court considered the jurisdiction of the Children's Court to hear adoption applications and considered that the purpose of the letter implicitly recognizes that it is the Children's Court that must make a decision on the evidence before it on whether or not to grant an adoption. The Children's Court would, logically, consider the letter either recommending or not recommending the adoption in its assessment of, inter alia, 'best interests'. A Children's Court is not absolutely barred from hearing an application but rather may, in exceptional circumstances, condone that failure. The Court then held that it must then follow that a Children's Court that is in possession of a letter – albeit a letter not recommending the adoption – would still be entitled to consider the adoption application.

If this were not so, it would lead to the absurd conclusion that a Children's Court is bound by the decision of the first respondent and has no authority whatsoever to depart from it. This, in the view of the Court could not be correct and, in fact, would do violence to the separation of powers doctrine and defeat the very purpose of the Children's Court. A converse finding would not only run contrary to the spirit and purport of the Children's Act but would also violate several fundamental rights of children including: firstly, the purpose of the Children's Act as articulated in its Preamble; secondly, the objectives of the Children's Act, generally, and the objectives of adoption, specifically; thirdly, a child's right to 'family life'; fourthly, the child's right to appropriate alternative care; and fifthly, a child's right to have his or her best interests considered of paramount importance, particularly insofar as it deprives a child to 'family life' and leads to undue delay.

In conclusion, the court declared that the letter contemplated in section 239(1)(d) of the Children's Act 38 of 2005 includes a letter not recommending the adoption of the child.

ix. S v L M and Others (97/18; 98/18; 99/18; 100/18) [2020] ZAGPJHC 170; [2020] 4 All SA 249 (GJ); 2020 (2) SACR 509 (GJ); 2021 (1) SA 285 (GJ) (31 July 2020)

The matter has its genesis in an urgent review concerning four (4) children, which came before magistrates for diversions in terms of section 41 of the Child Justice Act. The children were alleged to have

committed offences referred to in Schedule 1 of the Child Justice Act. They had all tested positive for cannabis which tests had been performed at school. They were accordingly alleged to have been in possession of cannabis which constitutes an offence in terms of Schedule 1 of the Child Justice Act.

The court in terms of the review application before it made the following declaratory order:

- a). It is declared that section 4(b) of the Drugs and Drug Trafficking Act 140 of 1992, as amended is inconsistent with the Constitution of the Republic of South Africa, 1996 ('Constitution') and invalid to the extent that it criminalises the use and/or possession of cannabis by a child.
- b) Pending the completion of the law reform process to correct the constitutional defects, no child may be arrested and/or prosecuted and/or diverted for contravening the impugned provision. This moratorium did not, in any way, prevent and/or prohibit any person from making use of any civil process and/or procedure to ensure a child receives appropriate assistance and/or interventions for cannabis use or dependency.
- c) That section 53(2) read with section 53(3) of the Child Justice Act 75 of 2008 ('Child Justice Act') does not permit, under any circumstances whatsoever, for a child accused of committing a schedule 1 offence to undergo any diversion programme involving a period of temporary residence.
- d) That section 58(4)(c) of the Child Justice Act does not authorise and/or empower a prosecutor or child justice court to refer a child, accused of committing a schedule 1 offence, and who failed to adhere to a previous diversion order, to undergo any further diversion programme involving a period of temporary residence.

2.2 SERVICES TO OLDER PERSONS

The District Renders Care and Support Services to Older Persons through residential facilities as well as Community Based Care and Support Services. Residential facilities offer 24-hour care, protection and support services in a safe and secure environment whereas Community Based Care and Support Services happens in the service centres which are within communities, these promote recreation, social cohesion and Active Ageing (Golden Games). The emphasis is on

improvement of social wellbeing and the protection of Older Persons against any form of abuse through establishment of support structures. As a way of reaching out and extend services to Older Persons the Department will expand Community Based Care and Support services rather than institutionalization. This is also as part of the transformation agenda as outlined in the social sector priorities.

2.4 HIV AND AIDS

The National Development Plan notes that in 2007, South Africa represented 0.7 percent of the World's population but accounted for 17 percent (about 5.5 Million people) of the global number of HIV infections. In the Eastern Cape specific focus is more on areas where there is high HIV prevalence as HIV has enormous strain on the capacity of families to cope with Psycho – Social and economic consequences of the illness as well as to curb new HIV infections.

Young people aged (15 -24 years) are identified as key population mostly affected by HIV and AIDS hence strengthening of Prevention Programme through social and

behavior change and Psycho-social support services. In response to this, DSD derives its mandate from the National Strategic Plan (NSP) for HIV&AIDS, TB and STI's 2017-2022 which acknowledges that HIV&AIDS is not only a health issue, but a developmental issue, hence the combination approach. In the next financial year focus will also be on Key populations that have not been key in the Programme i.e. Sex Workers, Older Persons, Persons with disabilities, Lesbian, Gay, Bi-sexual, Trans-gender, Inter-sexual, Queer, Asexual plus (LGBTIQA+'s) and Families experiencing Gender Based Violence which will have an effect on the Programme target population.

2.5 SOCIAL RELIEF

The Department is mandated by the Social Assistance Act to develop a safety net for individuals, families and communities in difficult circumstances and to respond to situations of disaster declared and undeclared. This the Department does in collaboration with South African Social Security Agency (SASSA) as the Department Agency. The services are aimed at the eligible poor and vulnerable and can be offered in the form of counseling and material aid (uniform, clothing, food parcels etc.). The unit cost of intervention per beneficiary is based on the pronouncement of the increase or decrease of

the Old Age Social Grant as pronounced by the Minister of Finance annually which impacts on reaching out to more beneficiaries sometimes due to budget limitations.

The Department will further contribute to the Integrated School Health Programme in ensuring that indigent learners from Quintile 1,2 & 3 schools receive material support in partnership with Department of Education and Department of Health. The Department will further ensure that these services are more biased towards Anti-Poverty sites.

3.3 CHILD CARE AND PROTECTION

The primary focus of this programme is care and protection of children against Violence, Child Abuse, Neglect and Exploitation (VCANE). This is undertaken through provision of Community Based Prevention and Early Intervention Services to support Vulnerable Children in communities. It also ensures provision of Therapeutic, Psychological, Rehabilitative services as well as Alternative Care Services for children found to be in need of care and protection through Temporary Safe Care, Foster Care, Child and Youth Care Centres including Adoption Services for those requiring permanency.

Child Care and Protection is a highly legislated terrain, rooted on both the Constitution of the Republic of South Africa, Act No. 108 of 1996 and the Children's Act 38 of 2005 as amended. The Programme needs to ensure compliance to legislation/professional standards/service standards to avoid

litigation. This requires design and implementation of integrated programmes and services (interventions, evidence-based management and information support, human resource development and capacity building) that provide for the development, care and protection of the rights of children. Full and effective implementation of the Children's Act 38 of 2005 as amended remains our biggest challenge.

The sector paradigm shift for provision of Child Protection Services emphasizes a shift from statutory services to Prevention and Early Intervention Programmes to ensure that abuse is prevented before it occurs, identified early enough, avoid children from getting deeper into the system and that all children are prepared for every stage of life in line with the life cycle approach.

3.5 CHILD AND YOUTH CARE CENTRES (CYCC)

The sub-programme provides residential care services and support to vulnerable children through governance (registration, funding, monitoring and evaluation of Child and Youth Care Centres) and capacity building of all relevant stakeholders in the children's Act. Slow progress in reunification services for children in residential care centres due to limited resources for case managers (external Social workers from Department of Social Development (DSD) and Child Protection

Organizations).

The target and counting in this indicator also include children placed in state owned CYCCs, underperformance is viewed as positive deviation in line with the sector Paradigm shift that enforces CYCCs as the less preferred alternative care option, promoting family based approach as opposed to institutionalization of children.

**PART D:
TECHNICAL INDICATOR
DESCRIPTORS (TIDS)**

PART D: TECHNICAL INDICATOR DESCRIPTIONS (TIDS)

The Revised Framework for Strategic Plans and Annual Performance Plans (DPME, 2020) stipulates that the Technical Indicator Descriptions (TIDS) must be given for each output indicator. The Department has developed the TIDS in line with the Framework and has ensured that each indicator has been defined for ease of understanding. The Source of data (indicating where the information is collected from) has been provided and data is divided into Primary and Secondary and the primary source will be kept at the point of data collection (i.e.

Institutions, Organisations, Local Service Offices) for record keeping and to maintain confidentiality. The majority of the APP indicators are calculated quantitatively and are expressed in numbers. It should be noted that for the majority of the Performance Indicators, it might not be possible to accurately disaggregate beneficiaries at intake entry level for the services because services are voluntary and accessible to everyone who needs, without classification on gender, age, race and other classifications
